With the grace of Allah I have got a very good experience all over 27 years in teaching and memorizing the Holy Quran. Before my hand many graduates finished the holy Quran in a period of three years and two years' time as well. This is was correct articulation and assimilation practicing recitation rules and right pronunciation from articulators. Their ages ranged from seven to fourteen years of old. Moreover among too many students whom I taught are university teachers now in Arab Republic of Egypt and India. I was also among missionary candidates by Al-Azhar whom were sent to India do this work.

With grace of Allah too I have been working as chairman of holy Quran memorization center in Qatar state. This center contains 120 students over than 5 years. We teach them using Al-Qaeda Al-Nawranya. This center receives students whose ages may reach 17 years. Twenty students could finish memorization of the Holy Quran rather than students who kept its quarter and half too that we exert our effort to complete it. Some of them are so characterized by vocal performance. I do developing their abilities it myself how they can improve their vocal performance and recommending them to domestic and international competitions to represent their countries in the holy Quran memorization.
